Dear Excellency,

On behalf of the Government of the Empire of Japan (JPE Government), I pray the utmost respect and sincerity to your country, and congratulate you in the highest office of the Democratic Republic of Congo, and designate the JPE Government's Minister of Foreign Affairs – Dr. Shih Po Liu as our foreign representative to your country.

With regards to your history, we understand that your country too had suffered much oppression from the colonial past; however, our people are still under the imperialism and genocide from the USA and its dispatched Chiang Kai-shek armed group (Republic of China, ROC). Under such situation, we at the JPE Government and the Red Cross of Japan Empire (RCJE) would like to request Your Excellency to protect our people's human rights as our **Protecting Power** which is allowed by the international law for the execution of the Fourth Geneva Convention (**GCIV**) in our occupied territories in Formosa (Taiwan) and the Pescadores Islands (Penghu), until such a time the sovereign right of the Japan Empire is fully restored.

One of the challenges facing Taiwan (Formosa, the Japan Empire) today, is to clarify that the sovereignty over Taiwan after the "end" of WWII on 2 September 1945 has never changed. Seventy-four years later, we are still under occupied by the American assigned forces.

JPE Government hopes the attaching file on **“The Duties & Benefits of the Protecting Power for Executing the Fourth Geneva Convention of 1949 to the State of the Japan Empire”** would let you understand the true historical facts and gain your sympathy and support for human rights that our people duly deserve as provided in the **GCIV**.

In return to your kind favor, we can joint venture using our “Super Green Sustainable Pollution Free Technologies” for developing your nation's power, health, welfare, agriculture, industries, medical, infrastructure, natural resources and economy.

We look forward to discuss this matter in details at your earliest convenience time.

Sincerely
